To Whom It May Concern,

This letter is to verify that Christopher Morin was employed by Green Mountain Oasis in Bennington, VT as a massage therapist. Christopher was an exemplary employee and talented therapist. He was always prompt and reliable and showed great respect with both clients and other members of the team. His massage training skills are solid and strong and he was always eager to learn new treatments and techniques. While at Green Mountain Oasis, Christopher performed many modalities including; Swedish massage, deep tissue, sports massage, pain management, as well as, treatments incorporating essential oils and hot stones.

Christopher was well liked by his clients and had many he was working with on a regular basis. I have confidence in his skills and consider him to be an extremely talented and intuitive therapist with a very bright future in the healing arts field. I would highly recommend that he be allowed to practice in the state of Massachusetts.

Sincerely,

Gail Boulger
